ABOUT ME

I am a Computer Science graduate with a strong foundation in Python, SQL (MySQL, PostgreSQL) and front-end web development, including HTML, CSS, and JavaScript. I also have hands-on experience with Generative AI, large language models (LLMs), and tools like LangChain and vector databases such as Pinecone. I am passionate about software development and artificial intelligence, eager to contribute to innovative projects, and actively seeking an entry-level role in Python development, AI/ML, or other technology domains.

EDUCATION

Pratibha College of Commerce and Computer Studies, Chinchwad, Pune

2021 - 2025

B.Sc. - Computer Science, CGPA - 7.28

Pimpri-Chinchwad, Pune

PROJECTS

Chatbot using Gemini API 6 | Python, Google Gemini, Jupyter Notebook, dotenv

- Developed a chatbot using Gemini API to stream real-time AI responses.
- Utilized secure .env for API keys and prompt engineering for better UX.
- Demonstrated skills in API integration and conversational AI.

AI Dialogue Orchestrator 6 | Python, LangGraph, LangChain, OpenAI, Gemini API

- Developed an advanced conversational AI system capable of managing multi-step interactions using a graph-based flow.
- Utilized LangGraph to design modular and maintainable AI workflows, with support for looping and conditional logic.
- Integrated LangChain tools, memory modules, and multiple LLMs (OpenAI & Gemini) to enhance response accuracy and flexibility.
- Demonstrated skills in multi-agent orchestration, prompt engineering, and real-time AI interaction.

JobBot – AI-Powered Mock Interview Assistant & Python, Streamlit, Google Gemini API

- Built an AI-driven interview preparation tool as a practical application of my AI Engineer course.
- Conducts personalized, role-specific mock interviews based on user profile data.
- Generates real-time feedback with scores using Google Gemini API.
- Designed a clean, minimal, and interactive UI with Streamlit for seamless user experience.

TECHNICAL SKILLS

Languages: Python, SQL(MySQL, PostgreSQL), JavaScript

Tools/Frameworks: HTML, CSS, React, MongoDB, Jupyter Notebook Developer Tools: VS Code, PyCharm, IntelliJ IDEA, Cursor, Git-Github

AI/ML Tools: LangChain, LangGraph, Hugging Face Transformers, OpenAI/Gemini APIs, Pinecone

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate Oracle
- Generative AI with Google Gemini Udemy
- Software Testing Udemy
- Understanding APIs and RESTful APIs Udemy
- React and Redux Certification Test Complete Coding
- AI Engineer Course Complete AI Engineer Bootcamp Udemy

ACHIEVEMENTS

3rd Place Winner – "AI Powered Pratibha Wizardry" App, Explorer Intercollegiate Project Competition
